

CLASS 9th
BIOLOGY ADVANCE SHEET

A. Cell Biology

1. Draw and label plant cell diagram with organelles.
2. Explain difference between prokaryotic and eukaryotic ribosomes.

B. Tissues

1. Function of xylem & phloem with diagram.
2. Compare skeletal, cardiac, and smooth muscles.

C. Nutrition & Respiration

1. C₄ vs C₃ plants in photosynthesis.
2. Steps of aerobic respiration in mitochondria.

D. Circulatory & Excretory System

1. Flow of blood through heart with oxygenation process.
2. Mechanism of urine formation in nephron.

E. Reproduction & Genetics

1. Draw Punnett square for monohybrid cross of pea plant (Tt × Tt).
2. Explain evolution by natural selection with example.

F. Miscellaneous

1. Role of hormones in human reproduction.
2. Identify and explain adaptations in desert plants (xerophytes).
