

CLASS 9th
BIOLOGY PRACTISE SHEET

A. Cell Biology

1. Differentiate plant cell and animal cell.
2. Function of mitochondria & ribosomes.

B. Tissues

1. Name 2 simple permanent tissues in plants.
2. Give one example each: Connective, Muscular, Epithelial tissue.

C. Nutrition

1. Balanced diet components.
2. Write photosynthesis equation.

D. Respiration

1. Aerobic vs Anaerobic respiration differences.
2. Explain oxygen debt.

E. Circulatory System

1. Name chambers of heart.
2. Difference between arteries, veins, capillaries.

F. Excretory System

1. Functional unit of kidney.
2. Name nitrogenous waste in humans.

G. Reproduction

1. Example of asexual reproduction in plants.
2. Male vs Female gametes.
