

CLASS 9th

PHYSICS REVISION GUIDE

- Equations of Motion: $v = u + at, s = ut + \frac{1}{2}at^2, v^2 = u^2 + 2as$
- Newton's Laws: $F = ma$, action = reaction
- Gravitational Force: $F = G \frac{m_1 m_2}{r^2}$
- Work & Energy: $W = Fd, KE = \frac{1}{2}mv^2, PE = mgh$
- Power: $P = \frac{W}{t}$
- Pressure: $P = \frac{F}{A}$
- Wave Speed: $v = f\lambda$
- Optics: $\frac{1}{f} = \frac{1}{v} + \frac{1}{u}$ for lens/mirror
